

Comprehensive Plan, Land Ordinance, and Zoning Ordinance Update

Town of Lexington | Lexington, SC

BOUDREAU

To better manage the increasing population growth relative to land use and preservation of the Town's quality of life, the Town is updating the 2016 Comprehensive Plan and the Land Development and Zoning Ordinances. Working in partnership with Stewart, a planning and engineering firm based in Raleigh, NC, BOUDREAU is leading the public engagement and working with community stakeholders to determine the desired future land use character and patterns. The goal is to create more illustrative and user-friendly ordinances that communicate the Town's vision and commitment to the environment and lifestyles that attract residents and businesses.

The project team was a collaborative effort led by BOUDREAU and included Stewart Engineering.
